**Opening Friday May 25 18.00 – 20.00**

Pushwagner Galleri is pleased to invite you to the opening of Aija Vinkelmane in Window Box. Pushwagner supports the young art scene by giving emerging artists space to show their work in Window Box, which presents monthly exhibitions curated by Thale Fastvold.

Aija Vinkelmane is a painter working with oil on canvas. She has participated in exhibitions in Latvia, Portugal, England and Germany. In 2006 she studied painting in Portugal, Porto, *Universidade do Porto*, and in 2010 she graduated with a MA from the *Art Academy of Latvia*. In 2011 she did a residency in Paris at the *Cité Internationale des Arts*.

Vinkelmane about her work:

*- Through my paintings I want to give the viewer a mysterious and surreal feeling. In my paintings I am interested in creating an imaginary connection to the real world. My goal is to draw attention to actual themes of today's society - the alienation from one self, from nature, from one another. In my projects I want to put focus on the human nature, our soul and our relationship with nature. I believe every person is a home to a beast or a lovely animal, depending on his/her nature. My work is about the dialog and relationship with this inner animal, the true self, and a fusion with nature, which can be both good and evil.*

Opening hours: May 25 – June 19 (day and night)
