

**Pushwagner presents: Erell Perrodo in Window Box
Opening Friday April 5 18.00 – 20.00**

Pushwagner Gallery is pleased to invite you to the opening of Erell Perrodo in Window Box. Pushwagner supports the young art scene by giving emerging artists space to show their work in Window Box, which presents monthly exhibitions curated by Thale Fastvold.

Erell Perrodo (1981.) is a photographer, based in Paris, who carries her camera at all times. “I feel the need to seize the sentiments and colors of my everyday life. It is a game where quests and memories tangle up to narrate stories. From the intimacy of a close up to a lonely travel passing by my grandmother's bedroom wallpaper these stories are an invitation to escape”(Erell Perrodo).

Erell Perrodo is showing here photography series *Doubles* in the Window Box gallery. “The search of resemblances and non-resemblances between two beings has developed an attraction and directed my eye towards the analogy between beings and things, physically or in behaviors: Brothers, twins, two similar people that aren't identical, the repetition of a gesture or a common habit such a mirror effect of someone and its ego projected by another. This series is dedicated to my sister Estine” (Erell Perrodo).
